Random Number Generator Certificate

This is to certify that iTech Labs has evaluated the Random Number Generator (RNG) by iMoon B.V. and found that the RNG complies with the relevant standards.*

Operator: iMoon B.V.
Operator URL: www.imoon.com
Software provider: iMoon B.V.
Software provider URL: www.imoon.com

The RNG uses a well-known algorithm to generate random numbers. The numbers generated by this RNG have passed Marsaglia's "diehard" tests for statistical randomness.

iTech Labs has conducted scaling tests for Instant (Crash) game.

The scaling tests were conducted on large enough samples to give the calculations sufficient statistical power.

iTech Labs has found that the number sequences are unpredictable, non-repeatable and uniformly distributed.

The certified code for the RNG has been fingerprinted.

* The RNG was tested according to the Malta Remote Gaming Regulations S.L.438.04.

Disclaimer.
While it is not possible to test all possible scenarios in a laboratory environment, iTech Labs has conducted a level of testing appropriate for a component test of this type.
