

Random Number Generator Certificate

This is to certify that iTech Labs has evaluated the Random Number Generator (RNG) by Orisun N.V. Company and found that the RNG complies with the relevant standards.*

Operator: Orisun N.V. Company

Operator URL: <https://ohplay.club/>

Software provider: Orisun N.V. Company

Software provider URL: <https://coco.game>

The RNG uses a well-known algorithm to generate random numbers. The numbers generated by this RNG have passed Marsaglia's "diehard" tests for statistical randomness.

iTech Labs has evaluated shuffling for Six cards drawn from Two decks and Five cards drawn from Single deck for Card games. iTech Labs has also conducted scaling tests for Slot, Roulette, Instant Games (Mini Dice, Mines, HiLo, Dice), Crash/Limbo games.

The shuffling and scaling tests were conducted on large enough samples to give the calculations sufficient statistical power.

iTech Labs has found that the card/number sequences are unpredictable, non-repeatable and uniformly distributed.

The certified code for the RNG has been fingerprinted.

* The RNG was tested according to the UK Remote Gambling and Software Technical Standards February 2021 and the Testing Strategy for Compliance with Remote Gambling and Software Technical Standards February 2021.

Disclaimer.

While it is not possible to test all possible scenarios in a laboratory environment, iTech Labs has conducted a level of testing appropriate for a component test of this type.
